Synopsis

AN INSTANT GUIDE TO INSECTS is an ideal compact identification guide to the most familiar insects of North America, from bugs to butterflies, from moths to mosquitoes, and all the thousands of other species of insects commonly seen in the home, garden, city, and countryside. It assumes no previous knowledge: an easy-to-follow system of color-coded bands (denoting type of insect) and symbols leads rapidly and easily to the correct section of the book. Detailed full-color illustrations of insects, with larvae where applicable, plus a distribution map and concise informative text allow you to identify positively the most familiar species of North America.
