WHAT THIS BOOK INCLUDES: Techniques for our conscious to connect with our unconscious where many of the root causes of dysfunctional behaviors are. Dr. Schaub gives detailed methods

to recognize the messages that anxiety and fear signal from our unconscious. These techniques help us shift our perceptions to incorporate the real information from our subconscious into our consciousness. These alternative thought patterns enable us to access a more functional, balanced approach to life. He also teaches ways to check back with our subconscious to keep us on our new functional paths. I strongly recommend this approach to anyone struggling with negative emotions and/or thought forms causing dysfunction in their lives.

**HOW THIS BOOK CHANGED MY LIFE:** In my work with this book and with Dr Schaub, I became aware of many life long negative thought forms that affected my self perception. We worked through these by the recording at least several negative self-comments which I counter balanced with at least 3 positive comments regarding each "self-abuse". I had been conscious of some of these self-defeating patterns, but was astounded at how many and how deep these patterns can be. And this helped me be less depressed and more willing to keep working. Beyond that we/I discovered parts of myself that I had submerged. The anxiety, fears, worries, negative approach to life were telling me these parts needed love, acceptance, and upliftment. I'm a pediatrician and have no trouble being compassionate with and treating children with unconditional love. It has been a joy to be able to unconditionally love myself. Recognizing, accepting, and developing alternative ways of dealing with the fears/anxiety and the underlying self needs has been revolutionizing in my life.

Fear and anxiety are on the rise - any time you watch the news or check the local newspaper, you are likely to find information that makes you worried about your future and the future of your children. People can let fear and anxiety take over their lives and it can be have a negative impact on your life in a wide variety of ways. However, there are ways to maintain and deal with the fear and anxiety that we all face in our lives. Even when we feel our concerns are worse than others - there are steps that can be taken to find the root cause of the fear and anxiety. Once the root cause is found, there are ways to work through these issues and to limit the impact fear and anxiety have on your life. Dr Feidemann Schaub has developed a program that helps you find the root problems and shows you how to deal with these causes of fear and anxiety. Many people take various medications to ease their fears and anxiety - however that is a temporary fix. On the other hand, Dr Schaub's program works in a way that will help you find the problems and FIX them - not just mask them temporarily. The Fear and Anxiety Solution is based on his program and walks you through the steps to find your solution to fear and anxiety. He says that "the person who starts the book is not the same person who will finish the book". That's a powerful statement and if you read the book and apply the various steps as he outlines them - you can and will notice a difference in YOUR life. This

is the table of contents for The Fear and Anxiety Solution to give you an idea of some of the topics that are covered.
