Just Like Starting Over: A Second Chance Romance (The Island Brides Book 1)

NATIONAL BESTSELLER
AVERY JAMES

Synopsis

Ten years have passed since Annie Martin left the sleepy island town of Stone Harbor... Ten long years since her last kiss with the boy she thought was the love of her life. Enough time to move on. And plenty of time to wonder what might have been. The hardest choice Jake Thompson ever made was letting Annie go, but that was so long ago. He has it all now. Success, family, and happiness. There's just one thing missing. Her. And sometimes, love deserves a second chance.

Customer Reviews

This is the first book in a new series by Avery James. After 10 years since their breakup, Annie is finally coming home to Stone Harbor. However she is now engaged and wants her ex-boyfriend to build her summer home. But for Jake that is a difficult task since he's never gotten over Annie and they always dreamed of what their home would look like. Now to help her build that dream with someone else is simply more than Jake can handle. But when Annie's circumstances change can Jake convince her to give their love a second chance? This was a fun contemporary romance that grabbed me from the start. ARC provided in exchange for an honest review.

Good read but at times you wanted to kick hero and heroine in the butt because of stubbornness

and miscommunication. There was also quite a bit of head talk that got repetitive. Otherwise, story is good, only a few minor typo's in the beginning like where Veronica was called Vannessa for a few paragraphs. Will definitely get the next books in the series.I received ARC for an honest review.

Just Like Starting Over is a second chance romance set in Stone Harbor, ME. Annie and Jake were high school sweethearts on their way to marriage perhaps when Jake's father died. Young and overwhelmed with the needs of his family he pushed Annie away with no explanation, breaking both their hearts. Annie, now a pediatric surgeon, is back for the summer. Can these two find a way to build a more lasting relationship based on communication and trust? This reader appreciates the author's command of English. Her locale descriptions made me feel I was in Stone Harbor. My only problem with the book was the endless angst and internal musings and insecurities exhibited by both supposedly over 30 characters. These insecurities manifest in their lack of meaningful conversation regarding their relationship and future. It seemed like every time either of these two had something important to tell the other, their lust got in the way, simply postponing the inevitable confrontation. Other than that it was a good story. I received an ARC in exchange for an honest review.

A good beginning for a new series. I really enjoyed this second chance at love book. A young romance sidelined by circumstances neither had any control over or even knew about, they each thought the other was no longer interested in a relationship. Ten years later life throws them together again, but once again outside forces keep them apart until a dying man's wish gives them the chance they need. This book has lots of action and romance and will keep you emotionally involved and rooting for Annie and Jake. A good read for the romantic side of you. I received a free advance copy of this book in exchange for an honest review.

This is a love story . Annie has come back to Stone Harbor engaged to someone in New. York . It has been ten year since she left because of a break up . Jake own his own construction business and he has been planning away for the one he let go 10 years ago . You will get to be apart of the way this out works out. What happens when they see each other after so long.? I was given this book for a honest review.

I received this for my honest review. This is a true second chance love story. Annie has come back to Stone Harbour after ten years of being away due to her break up with Jake. She's there to visit

her mum and go over house plans as she is finally moving on and is engaged to another doctor in New York. Jake took over the family construction business, always regretting and wanting the one he let go 10 years ago. This is great reading I won't sat any more you will have to read it to find out what happens.....

I was given this book in exchange for an honest review. This story had great characters, plot, and writing. A story about a young couple that break up when she leaves to go to medical school. When she returns to the island to have a summer home built for her and her fiancÃ©, her old boyfriend is the builder. Circumstances change drastically, and the story goes from there.

This book was enjoyable reading. I have read some of Avery James's other books so I was excited to receive an advanced copy of her new one. It didn't disappoint. Since other reviewers told the gist of the story so I won't. Just to say I like the way Ms James paints her characters and surroundings. I would love to visit Stone Harbor for real!
