Slow Burn In Tuscany: A Lesbian Romance

Synopsis

What do you do when your worst enemy turns out to be the one woman you can't resist? Single mom Brianna Valente has hated Madison Blake since the night they graduated high school. So when the rich, beautiful Madison signs up for the same tour of Italy that Bree is taking with her BFF, it's almost enough to ruin the trip before they start. As if that's not bad enough, a nosy, loud-mouthed journalist starts poking into the tourists' private lives -- and turns Bree's upside down. Suddenly, everything she thought she knew is wrong -- and the woman she was sure she hated is hotter than the Tuscan sun and firing all Bree's fantasies. The tour becomes a journey of unexpected discoveries, full of sweet seduction and vivid emotion -- until Bree realizes that she stands in the way of Madison's deepest desire. Will Bree sacrifice her first-ever chance at real romance for the sake of Madison's dream? And if she does, can love find a way to bring them together again?

I must admit, I was expecting a typical formula vacation romance. This became so much more. It seems like every tour has its Pamela, but aside from that friction, the writing was so beautifully done I could feel the love for the food, the land, and Madison. A tender HEA book I read cover to cover in

a single sitting. (Sleep, we don't need no stinking sleep!) Even the drama felt real, not contrived at all. Just real concerns, emotions, and choices. Thank you!

Warning: This review contains spoilers. Gosh, where do I start? This has got to be one of the best novels I've read in this genre. My opinion of course. I'd say easily in my top 5. I need to go back and read it again but first I have to read Melissa Brayden's new book but first I have to allow myself several days to think about this book. This author is new to me and I only bought it because of the positive reviews it received. No regrets. It will make you go through every emotion - you will laugh out loud until your stomach hurts, cry like a baby with snot running down your face, have your heart broken along with the characters' hearts, melt and swoon over their cute, sweet scenes, and possibly want to take a cold shower ;). I totally fell in love with Madison's character and absolutely loved how she was written - cocky and confident yet also shy, how she's held on to this high school crush for nearly 20 years, and the way she's always staring at and watching Bree's every move was so hot. The entire book was just bursting with sexiness. And I loved the fact that the relationship developed slowly - hence the title of the book and it just made it that much better. There are authors who can write and there are authors who can really write, and this author can really write and she does it so, so beautifully. FYI, this book is written in the first person and while I'm not a huge fan of that, Miss Fox nailed it with this one. As for the ending, I can understand why some readers disliked it. I prefer F/F books without kids and pregnancy and all that, but it was still a happy ending and that's all I care about. I heard there's going to be a sequel and the author has another novel that's supposed to be released in the near future. I can't waaaait. Oh, and did I mention the hot sex scenes? This author can also write love scenes and it's some of the best ones out there. And I'm a sucker for characters dropping F-bombs during them.

Really entertaining! After reading a few lackluster novels lately, I was pleasantly surprised with this book. The characters are fun and their dialogue is sometimes laugh out loud funny. It was a feel good and not overly dramatized story that kept me reading. I really liked the characters.... and (btw) the love scenes were hot and set in Tuscany. Definitely worth reading.

Brianna finds her high school nemesis is on her tour of Italy. Brianna and her best friend from high school have always disliked the beautiful Madison Blake but for different reasons. When Madison joins Brianna's tour of Italy, Brianna is sure that the result will be terrible. Little does she know that Madison will awaken desires in her that she didn't know existed and turn her world upside down, in

a good way. This book combines romance, beautiful Tuscan scenery and the hope that true love exists for all of us. I wasn't sure what to expect when I ordered this book but what I found was a beautiful love story set in a lovely and magical place. Amore.

What a great surprise to discover that *Slow Burn* is an outstanding book! I hadn't heard of the author, so I chose it simply based upon its ranking. I can't say enough good things about Giselle Fox's talent in developing characters and the true tenderness through which they express their passions. Kudos to you, Giselle, for sharing a breath of fresh air!

A beautiful reunion in Tuscany ! What more romantic love story can you ask for ? I read the book in one evening, couldn't put it down, it is sweet, thoughtful and very teasing, I love both characters, specially Madison, this book really deserves a sequel, I wish to see how Bree and Madison build their future together and if they will succeed with the hope of Madison, please more and thank you for the joyful read ! I look forward to hearing about Maize too !

I thoroughly enjoyed this book, I was rooting for the characters, particularly Madison. It was a wonderful romance, they found each other again proving that what is meant to be is meant to be. Things not always happen at the time we want them to and Madison knew. I wanted more of their story, my only complaint is the book is too short. I'm not so much into sequels but this book definitely needs one. Or at least let the characters be featured in another story just to see what's up with them. I strongly recommend it.

A lovely story about a reunion with a first crush. 18 years later and finally both in a place where anything is possible. Everyone had a first crush and most times that was all that happens, but they had a second chance.
