The Dragon's Egg (Dragonfall Book 1)

Synopsis

Seventy-five years ago, the dragons fell from the sky. We thought they were just meteoritesâ "six terrifying explosions rang the world like a bell. When the dust settled, we went on with our lives as though nothing had happened. More than a decade later, five of the eggs hatched. The dragons that emerged were small and weak. They kept to the shadows, working in secret to persuade people to do their bidding, offering magic as payment and reward. Years passed â | and still we didnâ "t notice the evil growing in our midst. The war began suddenly. Survivors called it the â ^apocalypseâ " nine billion people killed in an afternoon. Then the dragons revealed themselves, burning huge swaths of what remained, taunting and mocking and murdering the survivors. Four leaders arose: The Wizard, the Dragon Rider, the Monk, and the Dragon Slayer. Allied with the rebel dragon, they waged war for years until they too were defeated, scattered, or killed. When the war ended, only one dragon remained â | but that single dragon was enough to plunge the world into tyranny. The Dragon's Egg is the first book in the post-apocalyptic, epic fantasy series--The Dragonfall Trilogy.

Customer Reviews

The Dragon's Egg is a post-apocalyptic book centered in a future world that has been decimated by dragons. The dragons came to the earth in meteorites and used cunning, deceit, and magic to eliminate the majority of humanity. A single dragon remains and rules the world as a tyrant. The book begins after these events have occurred and follows a young man who is trying to live a normal life- until it is upset by the tyrannical reign as the dragon tries to take command of the remaining 'free' cities. The book is interesting and pretty unique, but it has a number of elements that make it less enjoyable to read, and overall a fairly weak book. I'm torn between giving this 2 or 3 stars. I think it is a solid 2.5. I would read the next book in the series because I like the writing style and the plot, however if the negatives are continued, I would probably stop reading. **Positives:** + Surprisingly unique, I was worried about this being an Eragon copy. + The plot was good and the writing kept me reading. If the author can fix the issues below this could be a really strong series. + The main character is not indestructible as is the case in too many books.... (just infallible, as explained below). **Negatives:** - The biggest issue with this book is Frank. Weak characters are useful in stories when used correctly, this is not the case here. Generally weak characters have certain positive traits, or at minimum a strong plot role. Frank starts out interesting enough, showing a level of cunning that could have been built upon to make a strong character. Instead, after the first few chapters, Frank becomes a complete bumbling idiot/coward/screw-up whose only purpose in the book is to show how 'great' a person the main character is.
