Customer Reviews

Through this book, I learned that penny stock has low market capitalization. It can be liable to control and pump and dump tricks. It is likewise exceedingly unpredictable and presents an immense measure of danger to financial specialists. In the US, the Financial Industry Regulatory Authority and the SEC have rules and rifles to characterize and control its deal. This book is a fine guide for me to comprehend penny stock trading.

Very educative book. Its very useful and a good reference in my study in Accounting. The pros and cons are well explained and comprehensible. And also the how to are detailed. I remember my partner also once encouraged me in penny trading, but I'm not quite interested. But with this book, I gained a lot of information to ponder. I know it is somehow addictive and a game for money, but if there's no pain, no gain. It makes me rethink about what my partner just suggested to me. Who knows we will be also listed in the people who earned millions from penny stocks.

I loved the example where 50 Cent used a pump and dump strategy. That is really interesting to think that a celebrity could make fraudulent claims about stocks because they own so many of that stock. This opens my eyes and worries me a little about how to know if a company is just making their stock seem desired. I am not sure if I am ready to make purchases in Penny Stocks just because I am a little scared but I loved reading this book!

The author does a good job in explaining what penny stocks are, potential risks of penny stocks,

how to spot winning penny stocks and effective penny stock strategies. The techniques and tips are easy to follow and well organized, pretty straightforward and concise. If you are interested in trading penny stocks this book can provide a strong introduction for you.

Have learnt so much about penny stocks, it's being gaining popularity these days and some persons have earned millions from trading the best penny stocks. With this book have learnt how to use penny stocks, strategies to help me earn money and achieve they financial freedom. I no longer want to live on a single source of income but have various investment method, so am considering penny stocks and this book has equipped me with enough strategies with great help to achieve a financial breakthrough.

I am into stocks and this books is great for beginners who what to get into stocks more specifically penny stocks. This book give you a guide to follow in picking penny stocks, it can even help you in organising the mind set you need in studying stocks. However, this book should not be the only book you read before you pick stocks. Continue reading about stocks and have this book as one of your guide.

I am not familiar with Penny Stock Trading, I'm curious and I wanted to know more and this book has got it covered for me. It discusses the benefits as well as the risks and know-how of this type of investing. With crystal instructions on how to get started from taking into careful consideration and thorough research as to which company to invest in. This book also highlights the importance of knowing what you're getting into. Excellent book, advice is perfect for beginners.

This book is great. I talks about the risks and benefits of penny stocks, as well as the definition, the know-how, and the tricks to get the most out of your investments. On top of that, a warning against scams, tips for selecting a broker, and much more. Donâ™t wait if youâ™re into that business and get this relatively cheap book.
