ReviewDESCRIPTION:The Iron Horse is a massive steam-powered locomotive manned by a crew of warriors, miscreants, and genetic anomalies. Socrates, the train's commander, is an autonomous steam-powered gorilla with memories and knowledge reaching back more than a thousand years. Their mission is to locate a new source of starfall, the rare element that powers the ancient city of Sanctuary. Their civilization needs starfall, but for Socrates the matter is personal. Without it, he will die. After a brief respite on the shores of the Forgotten Sea, the crew readies for their next great adventure. This time, the tracks will take them somewhere entirely different. The only way across the great sea is under it. But as the Iron Horse plunges into the icy waters, something goes wrong. The train has been sabotaged, and to make matters worse, their fuel supply has been stolen. Trapped at the bottom of the sea, faced with the choice between a slow death by suffocation or a fast one in the crushing black waters, Socrates makes a last ditch effort to save the crew. He believes there is a cavern ahead, if they can only make it that far. | But even if they survive, the crew may face an even greater peril from a completely unexpected new enemy.

Excellent continuation of the adventures of Socrates, the mechanical ape, River and all the others on board the 'Great Iron Horse'. From a perilous ride underneath 'The Forbidden Sea' to having their Starfall stolen to battling deadly creatures in an ancient city nothing can prepare you for what happens. Mr Sedgwick has again come up with a Steampunk adventure that outdoes the previous book in the series. I'm waiting with baited breath for the 3rd book in the series, great work Jamie!

I liked this book, and Part 1 in this series too. I have just one beef:Taut: to hold under tension. The opposite of "slack."Taught: believe it or not, the past tense of "teach." Has nothing whatever to do with muscles or bowlines.

I love these stories. There are plenty of surprises and lots of excitement.I am waiting in high anticipation for the next in the series.

Well written...plenty of action...imaginative. Plenty of twists and turns.

not as well written a s1st volume

I've enjoyed the book. The book keeps moving right along with lots of action. Characters are interesting and well developed. It's going to be fun to see what adventures await River in the next book

Enjoyed the ongoing adventures of River, Socrates and Kale. Lookin forward to book three. Hope everyone will read the full trilogy.

Once again I'm enthralled with this series!! These books keep you wanting more and more!! An on the edge of your seat read!!!
