I come from a family of 15, if you include my mom and dad, (9 other brothers and 3 sisters, if I remember correctly). When I was in grade school some of my brothers would taunt me and say "You're so stupid, why even go to school?" I just wasn't interested in school work until I got in sports in Junior High and one couldn't play if one didn't keep their grades up. So I worked harder at school work. I remember when I was very young and my older, and much smarter, brother came home from Ohio State, he told everyone it is just extremely hard. He said he just couldn't hack it. So he quit college and joined the army. Well, I thought, if he can't make it in college how could I ever? So I resigned myself to never going to college. But about 15 years after graduating High School, my friends talked me into going to college. I'd tell them I'm just not smart enough. Well, they talked me into trying. So I bought Harry Lorayne's book. Smart move! Wow! With this book I was able to have 6 pages of notes and memorize a key word for each line on the pages. So when I'd take my History exams it was always a piece of cake. I had names, dates, places, events all memorized, and it was EASY! My math classes were so much easier too. This book impacted in a positive way every class I took. With this book I was able to maintain a 4.0. Yes, that's right, a 4.0. Dumb little ole me that my brothers berated was actually the smartest one of the bunch. How? because I found out how to PROPERLY USE the brain God gave me by using Harry Lorayne's techniques! Some of the

students in college would give me the bird because they were jealous. I'd help some, who were not doing so well, with the techniques in this book and their grades would vastly improve just from spending a few minutes with them.
