Equine Levering For The Racehorse: Combining Scientific Levering, Conformation And Nature. Thoroughbred, Arabian, Quarter Horse. Horseracing, Barrel Racing, Endurance

Synopsis

Develop 'an eye for a horse'. Applying Levering to the Racehorse. Color cover, BLACK & WHITE INTERIOR. Search for the full color edition if full color is preferred. The book explains: the technicalities of how conformation levering applies to the racehorse; the rules that determine levering traits, & the unique levering traits of varied racehorse types such as sprinters, stayers, jumpers etc. Furthermore it discusses how levering relates to ability, distance gearing, yearling selection, traditional conformation, performance, breeding, stride length/type, racing conditions, etc..

With the many contradictions involved with the standard text book conformation, the author has set about researching many facets of equine conformation from scratch. This has been accomplished with software specifically developed for the purpose of not only identifying desired traits, but further analyzing the not so perfect traits, that often provide hidden benefits. The book is not about Veterinary, straight conformation, or the classic textbook show horse. If you just want a book about purchasing yearlings, 'Thoroughbred Yearling Selection based on Biomechanics' from the same author is a better purchase. Quote from racing magazine "Ross Brunt's take on conformation is like a breath of fresh air. Sometimes controversial, but never bland, his articles in 'Breeding&Racing' are among the most popular & well received. Capable of cutting through hyperbole to simple mechanics in layman's terms, Brunt has combined his years of analysis to produce an excellent publication. • Equine Conformation for the Racehorse is a treasure-trove for both new & seasoned buyers alike, & a publication every trainer should have in their office. • Brunt's book clearly demonstrates that when it comes to conformation one can't make a silk purse from a sow's ear. • " Breeding&Racing magazine. Includes detailed chapters on & references to barrel racers & endurance horses. Lots of photos help the learning process. Chapters initially written as stand alone articles, so some information will cross.

Book Information

Paperback: 230 pages

Publisher: CreateSpace Independent Publishing Platform (April 30, 2013)

Language: English

ISBN-10: 1484844297

ISBN-13: 978-1484844298

Product Dimensions: 5.5 x 0.5 x 8.5 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)
